

To join the people promoting the American Farmer, just say:

KING ME

Northrup King and customers are telling the world about the value of farm crops - and the people who grow them. We're excited about what's happening - and we're proud to support farmers - especially when we can also support you with great varieties - starting with a yield producer like this one.

New N4640 Want extremely high, stable yields of dry grain? This new corn hybrid is like having a solar-fueled dryer. Superior stalk strength and ear retention, plus very good staygreen, make N4640 a good choice for field drying. Heavy test weight grain dries down very fast. Outstanding drought tolerance, too. For top yields of field dry grain, ask us about new N4640 hybrid corn.

N6822 To meet the growing demands of our area, this corn hybrid keeps on going, like a diesel. N6822 can give you very high yields...even under continuous corn. Very good early growth, plant health and standability help N6822 deliver good quality, heavy test weight grain. Tolerates drought very well. Get the most out of your fields. Start with N6822 hybrid corn.

N7448 When growing gets rough, you need corn you can count on. Like N7448. Superior staygreen, standability and drought tolerance — plus a good foliar disease package — help this hybrid cut through tough growing conditions like a sicklebar in grass. It's well-suited for both no-till and continuous corn production. For yields you can rely on, plant N7448 hybrid corn.
