

YOUR BEST HAY

NEW HOLLAND

RETAIN THE QUALITY

New Holland invented the Haybine® mower-conditioner, and no one has ever made a better machine for retaining feed quality in the hay you grow. A full-width flotation header delivers the hay into rubber intermeshing rolls big enough to handle heavy, down, and tangled crop with ease.

Swath or windrow, choose a genuine Haybine mower-conditioner and save valuable time while you put up your best hay ever.

TROUBLE-FREE HAYMAKING

You don't sacrifice a bit of quality when you buy the affordable nine-foot Model 488 Haybine® mower-conditioner. This trouble-free hay conditioner has a clean-cutting header, rubber conditioning rolls, no-tools adjustments, and a choice of swath or windrow.

100-HP HAY SLAYER

When you need the best because you grow the best, don't settle for anything but New Holland's premier windrower, the 100 hp Model 2550. Easy to maintain and adjust, this high-capacity self-propelled windrower has a two-speed transmission for versatility and the same wide rubber intermeshing rolls found in all New Holland hay conditioners.

SMOOTH CUTTING, NO SHAKES

Cut those hard-to-reach places with the Model 456 trailing mower. It tilts below horizontal so you can cut in ditches, and it also tilts 35 degrees above horizontal to cut banks. Offset wheels give the "456" precise tracking and a smooth, clean swath. Choose either a seven or nine-foot cutterbar. Either way, the "456" is easy to hookup and a pleasure to use.

ROLABAR® RAKES WITHSTAND THE TEST OF TIME

Don't settle for second best when it comes to rakes. Choose the original—a dependable New Holland Rolabar® rake. The rake more farmers buy over all other brands combined. Why? Because its rugged construction makes it one hard-working, hay-grabbing machine. See the original Rolabar rake today
