

Three workers at the Mini-Farm Show included Minni Young, Emmaus; Farm Show co-chairperson Diane Schlauck, Slatington, and women's committee chairperson Nancy Semmel, Schnecksville.

## Lehigh Holds Mini Farm Show

NEW TRIPOLI (Lehigh Co.)— More than 5,000 people attended the weekend celebration of the Lehigh County Mini Farm Show held at Trexlertown Mall recently.

Kick-off of the event, sponsored by the Lehigh County Farm Bureau, was a giant ice cream sundae made by Turkey Hill Farm. The masterpiece contained 126 gallons of ice cream, 5 gallons chocolate syrup, 5 gallons strawberries, and 20 pounds of pecans. More than 2,600 ample servings were dished in less than two hours.

The mall was filled to capacity with agriculture exhibits, displays, and demonstrations. Four-H club members operated a petting zoo with 20 animals and displayed food and clothing projects. They also sold homebaked projects.

The Old Time Plow Boys displayed old tractors and equipment and sold farm toys. The Antique Engine, Tractor, and Toy Club displayed hit and miss engines and other antique items.

Quilting, spinning and weaving were demonstrated by several community groups.

Other events included a square dance, a fashion show, line dancing, and contests for children.

To assist in funding the event, about \$2,000 was raised through a

Friday night auction featuring donated items from farmers, agribusinesses, and mall merchants. Chances for a quilt were sold.

Educational exhibits included one of a market basket of items. Viewers were asked to guess how much money a farmer received from the \$40 charged by supermarkets for the items. The person with the closest guess won

the food.

Food samples were handed out by Hatfield Quality Meats, Alderfer Meats, Kuntzler and Leidy, Beatrice, Atlantic Dairy Cooperative, and Weis Markets.

When the Pa. Farm Bureau women's committee planned the show, they concentrated on educating non-farm consumers.

Agriculture was king during the Lehigh County Mini Farm Show. More than 5,000 people attended the event, which included the building of a giant ice cream sundae.

## DAYCO SUPER II V-BELTS

Now there's a belt that beats the toughest drive problems.

Innovative design & construction provide extra strength and stamina

Test the Super II v-belt on your toughest drive

The Super II v-belt was field-tested for two years on the most severe applications: rock quarry shaker screens, lumber mill tree debarkers, and pipe decalers. In every case, it outperformed conventional wrapped belts by a wide margin. But the only test that really counts is the one you do on your own equipment.

Try the Super II belt on your toughest drive problem. You'll be so amazed by its incredible endurance that you'll want to put it on all your drives. In fact, we're so sure you'll be pleased with the performance of the Super II v-belt that in the unlikely event you're not satisfied, we'll refund the original purchase price, or replace it with a conventional wrapped v-belt. The Super II v-belt from Dayco. The super problem solver.

Many heavy-duty industrial machines demand more than conventional wrapped v-belts can stand. Their punishing drives make ordinary belts crack under pressure. The result: unnecessary and expensive downtime.

Now there's a solution to the consistent costly problem of replacing or retensioning belts. It's the revolutionary new Super II™ v-belt from Dayco. The Super II belt was designed specifically for the most brutal applications. And its performance blows the cover off conventional wrapped belts.

In heavy torque, high horsepower and extreme shock load comparisons, it's not even a contest. The Super II v-belt is stronger, more flexible, and lasts far longer.

The secret to the Super II v-belt's durability is its unique construction. The central position of the polyester cords in the neoprene rubber core provides greater strength, balance and longer life. Multiple fabric plies top and bottom enhance flexibility. And Dayco's unique raw-edged construction gives it a better grip for controlled slippage.

These attributes, combined make the Super II belt superior to conventional wrapped belts in every way.

Dayco's unique raw-edged belt sidewalls grip pulleys better, minimizing belt slip, noise and drive vibration.

Hi modulus polyester cord located in the belt mid section is specially treated to maintain extreme belt loads & shock without stretching.

Multiple fabric plies relieve stress on the load-carrying center cords, allow greater flexibility. A belts have three plies top and bottom. B belts have four and C belts have five.

Special 100% neoprene rubber compound supports cord more evenly top and bottom, dissipates heat more evenly and provides more oil, heat and ozone resistance.

Dealer Inquiries Welcome.
