CHORE-TIME ...nobody knows more about feeding

Chore-Time Model ATF Feeder with polypropylene pan shown. Also available with galvanized steel pan.

The Right Choice in turkey feeders

RUGGED POLYPROPYLENE construction of Model ATF pan is available for permanent corrosion-proofing. Material has an ultra-smooth surface so feed and dirt won't stick, so it stays clean. Our polypropylene also has a special ultraviolet inhibitor. Liberal 5-year pan warranty! Ask for details.

FEED SAVER FEATURES: unique "V" pan shape lets you maintain a low feed level; feed-saver ring: 2 1/2" pan lip to catch feed.

FEED PAN DEPTH on Stage 3 Feeder is 5-1/2 inches; 8-week old birds or the largest toms can reach feed.

The Right Choice in cage feeders

Chore-Time's popular ULTRAFLO® Cage Feeding System is now even more outstanding! We've developed and tested the second generation of ULTRAFLO feeders and named it the ULTRAFLO II.

ULTRAFLO II offers you even greater reliability, durability, and outstanding feed-saving performance—up to 1 gram of feed per bird per day—over the original ULTRAFLO. And even the original ULTRAFLO was beating our competitors in feed savings!

So, join the cage feeding leader. Contact us today. Find out how Chore-Time and ULTRAFLO II can help you be a leader, too!

CHORE-TIME CAGE SYSTEMS
Milford, Indiana & Decatur, Alabama

New Shape The difference is the shape of the feeder's trough (at right). ULTRAFLO II's higher trough lip reduces feed waste by keeping it in the trough and not on the floor or in the pit.

New ULTRAFLO II Trough Shape Original ULTRAFLO Trough Shape
