

Handicapped Riders Event At Devon Horse Show

MALVERN (Chester Co.) — On Saturday, May 25, Thorncroft Equestrian Center in conjunction with Bryn Mawr Rehab will again be host to more than 150 riders and drivers who gather here to compete in one of the largest handicapped horse shows in the country, The Handicapped Riders Event of the Devon Horse Show.

Riders will compete in equitation classes on the flat and over fences, trail, dressage, and costume. Several entries will also participate in the driving division which consists of a dressage test, obstacle course, and cross country marathon.

This year is the 17th year of the

event, which has become more and more popular with equestrians not only in near by Chester County, but as far away as Massachusetts, Maryland, and Ohio.

Thorncroft's drill team "The Mainstreamers" perform and local associations and pony clubs will present their products in booths provided on the property. Friends come from near and far to watch their equestrians ride, and cheer them on. Bryn Mawr Rehab will sponsor a handsome horticulture booth, a luscious lunch, and the endless volunteers necessary to insure the day is again a success.

On Sunday, May 26 the excitement moves up the Main Line to

the Devon Horse Show Grounds in nearby Devon. Here winners of the individual divisions from Saturday gather to compete for the final time for the much coveted grand champion award. The trophy for this class was donated by

Northeast Distributors Sells, Services

CLIFFORD (Susquehanna Co.) — Northeast Distributors in Clifford, serving area farmers for 47 years, is now an authorized Massey Ferguson® dealership, providing sales and service support for MF® tractors from 15 to 170 PT horsepower, including compact tractors and related implements.

"The addition of the Massey

the late Hope Montgomery Scott, who herself won the trophy competing in 1930.

The Brushwood Challenge Trophy, donated by Mrs. J. Maxwell Moran of Brushwood Stables in Malvern, is also presented at this

Ferguson tractor line will help us continue to meet the needs of our customers by offering equipment with features and accessories previously not available through our dealership," said Bill Lopatofsky, owner.

The dealership will stock replacement parts for all present owners of Massey Ferguson trac-

time. The prestigious Dixon Oval, the spotlight of the Devon Horse Show, is the site of the grand champion class and presentation of the championship awards.

ACME The Power Behind Environmental Control

Breeze Master

76 Cow Total Ventilation System - Denver, PA
Lapp's Barn Equipment can install a high-performance/high efficiency tunnel ventilation system in your barn. A tunnel ventilation system will give you an even air flow throughout your barn of 2-5 mph. This gives you the advantage of better controlling temperature to give your cows more comfort which means more milk! Also, a tunnel ventilation system eliminates circulating fans, provides summer and winter ventilation and controls fly problems! An optional unit can even automate your ventilation so you will never even have to worry about it when you're not there, so you can concentrate on other things!
At Lapp's, we sell high quality ventilation systems manufactured by Acme Engineering. Acme products feature such things as:

- Galvanized Construction
- Wide Cambered Propeller
- Riveted Blades
- Unique Captured Bearings
- Vertical Support Frame
- Screens Pre-cut
- Totally Enclosed Motors
- Optional Discharge Diffuser Cone
- Optional Belt Tightener

POURED SOLID CONCRETE

STORAGE SYSTEM SPECIALISTS

START WITH THE BEST!

POURED CONCRETE WALLS

You get about 40% more concrete for your dollar with a poured, solid concrete basement as compared to a hollow core block basement.

A poured solid concrete basement weighs about 50 lbs. more per cubic foot! Far denser. What's more, poured solid concrete walls are monolithic ... there are no joints!

This is why laboratory tests show poured, solid concrete basements have many times the flexural and compressive strength to withstand the side and down pressures caused by earth, wind, water and building loads and the material density to resist water penetration.

Best of all, thanks to modern and efficient construction techniques, poured, solid concrete basements are competitively priced.

Solid Concrete For:

- Manure Pit Walls
- Hog House Walls
- Barnyard Walls
- Chicken House Walls
- Retaining Walls
- House Foundation Walls
- Silage Pit Walls
- Cistern Walls
- Concrete Decks
- Concrete Pit Tops
