

The **NEW LEADER** L3020

Heavy Duty LIME SPREADER

For more than 50 years, New Leader has aggressively met and exceeded market demand by producing the most dependable, adaptable and durable spreaders in the industry. The heavy-duty L-3020 spreader is a direct result of New Leader's unmatched experience in the agricultural equipment field.

Designed for high-volume applications of ag-lime and gypsum, the rugged and resilient L-3020 is also suitable for spreading fertilizer and hauling aggregate material. Equipped with an optional swinging rear endgate, the L-3020 can be quickly and efficiently converted into a controlled discharge, no-hoist dump system for stockpiling. The L-3020's standard 30-inch-wide conveyor system virtually eliminates the material bridging that's common with narrower conveyor spreaders. The versatile L-3020 broadcasts ag-lime at rates up to six tons per acre and fertilizer at rates as low as 150 pounds per acre.

Other Available Features:

- Complete body in 304 or 409 stainless steel
- Mounts on vehicles equipped with highway, semi or full flotation tires
- An optional ladder that attaches to either the left- or right-hand-side of the unit
- Optional heat-and petroleum - resistant conveyor belting available for transport and application of hot asphalt.
