

# “Harness® Xtra: the best weed control I’ve seen in years”

*Rick Schlosberg, 2,000 acres  
Newtown Square, Pennsylvania*

“I had always been a big Bicep user in corn, until I started seeing frequent mid-season escapes of giant foxtail. Even spiking the Bicep with extra Dual didn’t work. To make a long story short, I went with Harness® Xtra on 90 percent of my acreage in 1995. And, I’ll be doing it again this year.

With Harness Xtra, I had excellent long-season weed control of giant foxtail, fall panicum and triazine-resistant lambsquarters. I saw no escapes at all for the first time in over six years. It saved me money, too, because I didn’t have to spike it to get consistent control or come back with resprays.

I’m using Harness Xtra 5.6L in a big way this season. I encourage you to do the same.”
