The S.I. Feeder is designed to minimize feed loss. This is done with functional slant bars, low set design, proper pan depth, feed saving edges, and other concepts to reduce waste.

The S.I. Feeder Wagons have the versatility to feed any type of grain, forage, or even a total mixed ration. Four foot high inserts are options to increase load capacity and to control the downward flow of feed.

The Arrow Front design replaces the old goose-neck concept, eliminating 90 degree welded joints, making it stronger and more durable.

Get an S.I. Feeder now to get maximum efficiency of your quality feeds.
