**YOU JUST
 CAN'T MATCH**

**OUR MIX
 TMR Ruffage Master**
 These new Oswalt four
 auger Model 200/250
 mixers are designed to
 process and mix all
 feeds including baled hay
 into a fully blended
 TMR better than anyone!
 The aggressive notched
 20" diameter full pitch
 four auger mixing pattern
 dual shear shell design
 and exclusive self
 lubricating Tuff-Glide
 liners help feed materials
 flow more freely reducing
 horsepower requirements
 and virtually eliminating
 material hang ups and
 dead spots. The end result
 A better quality of mix!
 See your Oswalt
 Dealer today!

ACME The Power Behind Environmental Control
BreezeMaster

 42 Cow Tie Stall Barn - Loola, PA
 Lapp's Barn Equipment can install a high-performance/high efficiency tunnel ventilation system in your barn. A tunnel ventilation system will give you an even air flow throughout your barn of 2-5 mph. This gives you the advantage of better controlling temperature to give your cows more comfort which means more milk!! Also, a tunnel ventilation system eliminates circulating fans, provides summer and winter ventilation and controls fly problems! An optional unit can even automate your ventilation so you will never even have to worry about it when you're not there, so you can concentrate on other things! At Lapp's, we sell high quality ventilation systems manufactured by Acme Engineering, Acme products feature such things as:
 • Galvanized Construction
 • Wide Cambered Propeller
 • Riveted Blades
 • Unique Captured Bearings
 • Vertical Support Frame
 • Screens Pre-cut
 • Totally Enclosed Motors
 • Optional Discharge Diffuser Cone
 • Optional Belt Tightener
