the most versatile shredder

YOU CAN BUY

The exclusive design of the **Agri-Chopper** gives you unequalled performance.

The cutting rotor is made up of numerous rigid blades. It's weight, acting like a flywheel, never sends an abrupt shock to the tractor's power take-off. No gear box, belt or chain is used to drive the rotor, eliminating any risk of unnecessary breakdown

Thanks to it's blower, the **Agri-Chopper** can be used for various farm operations, such as cutting up round bales of wet hay used to feed the herd, blowing dry hay into a TMR mixer, spreading straw in free stalls, chopping corn stalks to serve as bedding. Many poultry producers use the **Agri-Chopper** to reduce their bedding costs

The blower on the **Agri-Chopper-H** is equipped with a chute that pivots 360° and can throw material up to 20 feet! This blower was designed to work equally well with wet hay as with dry hay

The blower on the **Agri-Chopper-P** is strong enough to blow straw or dry hay in a 10 inch diameter flexible hose 50 feet long

The height of the grate adjusts hydraulically, permitting the use of a smaller tractor, if necessary
