## R42. Engineered For Better Returns.

Just because the R42 is the smallest member of the GLEANER combine family doesn't mean it's small on features. In fact, the R42 has many of the same traits found in its bigger brothers. It just has a smaller bin capacity (170 bushel grain tank to be exact). And it's the perfect companion to the farmer who doesn't need a big combine, but still wants the same features as the larger models. Take the Natural Flow Harvesting System, for example. Its unique transverse mounting cylinder will move your crop in a ribbon like fashion from

the concave through the cage. So your crop never changes direction, giving you higher grain quality. The ComfortECH cab has an air ride seat that adapts to your height and weight. With lumbar support, adjustable arm rests and seat angles which add to its creature comforts. And with its 185 hp, turbocharged, liquid cooled engine, you'll have plenty of power to get the job done. To get a closer look at the R42, just stop by and see us. We'll be happy to show you how the GLEANER R42 is engineered for better returns.
