

## It's Not Just A Matter of Time!

Built to last, Stoltzfus Feeders offer *more* than a lifetime of use

Available in a variety of lengths, this wagon is ideal for feeding cattle in meadows or feed lots.

- Pan constructed of 1/4" boilerplate
- Slant bar or self-locking head locks adjustable for smaller livestock & easily removed for downed animals
- Easily attached dolly for greater maneuverability
- Head lock model has front gate for easy access to tray

Gates • Slant bar sections • Head locks • Gutter grates

Concerned about the green stuff?  
Make your twine Harvest Green™.

When you need consistent twine quality from ball to ball, you need Harvest Green™ for "no problem" performance in your baler. Competitively priced, Harvest Green™ baler twine is made from natural sisal fibers, carefully selected to produce tightly wound, quality balls of twine. Each ball of Harvest Green™ is dyed green to signify that it was manufactured under careful quality control procedures for smooth, consistent performance in any properly adjusted baler. It's knot-free, and specially treated to fight rot, mildew and fungus. Whatever brand of baler you operate, including big round balers, there's a Harvest Green™ twine available to help you bale hay or straw economically and efficiently. Ask for Harvest Green™ at your local farm supply center.
