Buy This Almost New Preowned Gehl Model 865 Corn Harvester with 2 Row Corn Head, Hyd. Swing Draw Bar, Metal Stop Protection, Tandem Axle, Electric Controls, Used for only 2 Silos

Model 865 delivers high-capacity at an economy price for extra value. The 865 is designed for use with tractors from 60 to 150 horsepower (1,000 rpm) or up to 120 horsepower with 540 rpm.

Standard equipment includes an in-head hydraulic knife and cutterbar sharpening system, electric controls, one-way shear-bolt protection system, single station cutterbar adjustment and an over-running clutch. Gehl's Metal Shop™ metal detector is an available option.

The eight-knife cutterhead is close coupled to the blower for continuous inline crop flow from the cutterhead to the blower to the spout. The cylinder is actually set into the blower compartment, speeding material flow from the cutterhead into the blower. Cylinder momentum and blower suction keep material moving reducing horsepower requirements and fuel consumption

MODEL 865

High Capacity with Unmatched Economy

The highly efficient Model 865 uses less horsepower per chopped ton than larger model forage harvesters.

With Credit Approval Through Case Credit

Take a 4 Month Rolling Waiver

OR

7.9% for 48 Months

Both corn attachments feature a patented rotor cutting system to feed stalks to the stationary cutting knife. Stalks are grabbed individually for minimal loss. With 3-inch wide crested gathering belts, the whole stalk and ears are delivered to the cylinder. The same sprocket powers both the gathering belts and the rotary knives. This simple system means less weight, less vibration and less maintenance
