**EARTH METAL -
A WORLD OF
DIFFERENCE**

Case International Earth Metal disk blades do make a world of difference on a tandem disk harrow. An innovative, patented process reduces the sulfides in steel that create fracture points in conventional blades. Remaining sulfides are left in random, non-directional globules. You don't have to be a chemist to understand what this means. Longer wear - up to 20% longer, And, 60% greater shock resistance. And, our unique shallow concavity, crimped-center blades, cut drawbar pull by 33% (compared to conical blades) and by more than 50% compared to spherical blades. That's fuel savings on top of longer wear and greater shock resistance.

SEE THE 3800 CUSHION GANG DISK HARROW
WIDTHS IN 12', 14', 18'
