D17 tractor \$2300, McCormick 200 tractor \$1025 and Farmall Super C tractor \$925.

Steve and Steven Jr. Petersheim conducted the sale.

Think about it Every time you get to the end of the row, you say to yourself, "If my tractor had a better turning radius, then I'd spend less time turning around And more time turning a profit"

Spend More Time Turning A Profit And Less Time Turning Your Tractor.

Don't dream anymore Because the new turning radius on the 9435 AGCO Allis tractor has arrived How did we do it? For starters, the frame has been contoured four inches inward on each side of the engine And we've recessed the space between the grille and radiator, giving you even more clearance between the front tires and frame We've also sculpted and sized the side quarter panels without disturbing the tractor's overall appearance

- The 9435 has 135 PTO hp and a 4-speed powershift transmission with 32 forward and 32 reverse well-spaced speeds
- To give you a wider selection of working speeds, we've placed gear ratios close together, so that engine horsepower can be matched with implement capacities and field conditions
- The Series 40 liquid-cooled engine has a combustion chamber design which provides excellent fuel economy while reducing exhaust emissions
- The AWD models feature a true centerline drive shaft for more efficient power transfer and less maintenance

As always, behind every AGCO Allis tractor, there's a 4-year/4,000-hour warranty backing it To see the new turning radius, stop by and see us We'll be glad to show you how much time and money you can save

AGCO Allis 9435
