# The Best of the Best

The Wheeling 2 oz. Seal of Quality coating represents the best of the best in the Wheeling Corrugating line of premium galvanized roofing and siding. Every panel that carries the 2 ounce coating assures you are getting the toughest, the most durable, the most corrosion resistant galvanized sheet available in today's marketplace.

### Genuine Old-Time Quality

Every Wheeling 2 oz. sheet is manufactured from heavy gauge steel topped with an extra thick zinc coating and formed into profiles that contribute strength and good looks. Build with a Wheeling 2 oz. sheet and you'll be working with the kind of durability and dependability that's been a standard in the industry for almost 100 years.

### The Proof is in the Process

The performance behind the Wheeling 2 oz. Seal of Quality is possible because of Wheeling's patented Cook-Norteman manufacturing process. This technology allows a more consistent quality product and a more uniform coating with unsurpassed zinc adhesion. The process takes more handling and more time, but the end result is a super premium panel that has its own limited 20 year performance warranty.

### Dimensions and Specifications

If your building plans call for roofing and siding materials with exceptional corrosion resistance, minimum upkeep and old-time toughness, you'll want to check the specs of Wheeling 2 oz. Seal of Quality galvanized.
