ROTO-MIX FEED MIXERS

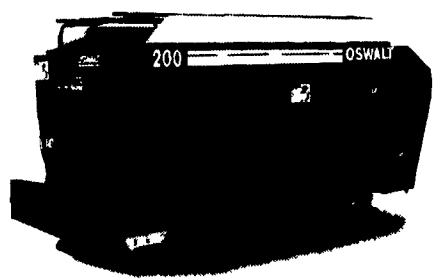

The same commercial-quality mixing features as our truck and stationary models, the trailer models are mounted on heavy-duty tubular steel trailer frames, complete with built-in scale mountings. Heavy-duty eight- or ten-bolt huts and spindles with a selection of tires for eight- and ten-hole wheels. The single trailer tongue is constructed of heavy-wall tubing for a shorter turning radius. A sturdy rear bumper and an adjustable, replaceable trailer hitch are also standard equipment.

OSWALT AUGER MIXERS

Mixers by J-STAR

Oswalt's New Hay Saw™ Processor - Effortlessly cuts through long stemmed hay, converting it into a thoroughly blended TMR. Save time, fuel and money and extend auger life. Perhaps the most revolutionary idea since TMR. Available on most Oswalt Models.

Be a Total Mixed Rations champion with Oswalt® four auger mixers. Choose from 12 heavy duty models with capacities from 150 to 950 cu. ft. Each helps you get the best feed conversion. The best feed utilization. And the best herd health and performance.

Plus, no other mixer -- reel type or auger -- gives you the endless opportunity to make the best use of every feed source...including baled hay. And no other mixer is built as strong as an Oswalt.

- Available in 8', 10' and 12' models
- Oil bath lower bearing & seal assembly for long life, low maintenance

"Pow'R" To Burn!

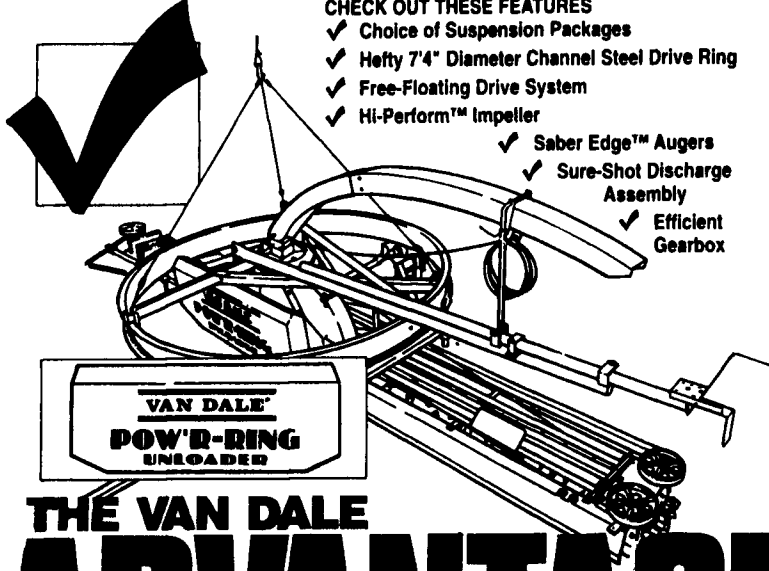

WITH THE NEW POW'R-RING™ UNLOADER

Van Dale's new POW'R-RING unloader has power to burn when it comes to taking on the toughest hard packed or even frozen silage. When other unloaders melt down, that's when the POW'R-RING silo unloader gets down -- down to business with the best unloading performance available anywhere.

But what else would you expect from America's most popular name in silo unloaders? We've put our 45 years of experience to work to build the best ring drive unloader ever. And, you'll be glad we did!
