## Farmer Boy Ag Systems Inc.

### HEATING

**ARSTREAMER** *Purefire*  
**Agricultural Heaters**

models from 40,000 BTU to 225,000 BTU

The Purefire heater provides a consistent, cleanburning and fuel efficient source of warmth for all types of poultry and swine houses. With near 100% efficiency, it uses less energy to yield greater BTUs for your money.

### L.B. WHITE Agricultural Heaters

models from 15,000 BTU to 325,000 BTU

With an L.B. White pilot heater, you get the dependability of a time-proven design plus the safety standards you'd expect from an industry leader. So your animals stay warm and you don't have to spend time worrying about their safety.

### FEEDING

**FEED BINS**

We assemble, deliver and set up bins on your farm

- \* Weather tight die-formed roof
- \* Stronger engineered sidewalls
- \* Ground controlled fill caps
- \* Galvanized roll-formed legs
- \* Engineered leg braced systems
- \* Fast flowing hopper bottom

with the **Flex-flo™ AUGER SYSTEM**  
in 2 1/4" dia. to 5" dia.

See us at the **KEYSTONE PORK EXPO**  
**Wednesday, Feb. 12, 1997**  
**Lebanon Valley Expo Center, Lebanon, PA**

### Shenandoah Agricultural Incinerators

Designed for Poultry and Other Farm Applications

### Calf-Tel™ Deluxe RH & LH Access

Our Deluxe model features a new, extra tall offset entry door opposite a right or left side feed access floor. Lets you group hutches side-by-side for easy feeding and service. Comes with two large pails, inside pail holder and eyebolts for lifting. Rainproof ridge-top ventilators keeps calves dry and comfortable.

### WATERING

Clean, Clean, Clean Animals adapt easily, Low/No electric use. Frost Free Water and Dairy Approved.

World Wide Leader in Quality Isolation Calf Housing

## Did You Know?

University tests and tens of 1,000s of satisfied dairy producers have proven isolation calf housing, hutches, are absolutely the best way to raise healthy calves. Progressive dairy producers do not sacrifice calf health for personal convenience

Calf-tel is the only thermoformed hutch. Thermoforming is a process that imparts strength to the polymer like forging does to steel. Rotocasting, a process used by all other plastic hutch manufacturers, creates a weaker, less durable product that is prone to cracking

Calf-tel is the only hutch manufactured with completely opaque material to effectively eliminate the green house effect. This heat trapping effect overheats calves when temperatures climb above 80° F and also causes uncontrollable temperature swings daily when temperatures drop below freezing. Over 100,000 Calf-tels are helping raise healthier, growthier calves worldwide from Florida through the sunbelt to California

Washington across the dairy belt to New England and in 20 foreign countries

Calf-tel is the only hutch made of high molecular weight polyethylene plastic with a high load UV blocking pigment. This quality material enables Hampel Corp to warranty Calf-tel for ten years, the longest in the calf hutch industry

Long after competitive hutches are discarded, used Calf-tels sell from \$125 to \$200 each—even after ten years of use. Such a high residual value decreases cost per hutch to as low as \$12 per year

When operator comfort is a concern, creative dairy producers have provided covered service alleys or placed Calf-tels in two or three sided shelters during inclement times

Watch this space for future calf rearing tips
