SYNCHROMESH TRANSMISSION

A NEW GENERATION OF TRACTORS CLASSIC BELARUS VALUE.

The 8000 Series from Belarus is a new generation of tractors for a new generation of farmers. But like always, Belarus tractors are strong on dependability and easy on your pocketbook. The 8000 Series has four versatile models to suit your individual needs. Choose from the two-wheel drive 8011 and 8311, or the tough four-wheel drive of our 8045 and 8345.

Each comes equipped with a rugged 81 hp, four-cylinder, fuel-efficient engine, and is available with cab or ROPS frame. Our 8000 Series also offers new features like a synchromesh transmission, with 14 forward and 4 reverse speeds. An improved turning radius provides even greater maneuverability, making the 8000 Series a welcome addition to any farm. Our new generation of tractors shows how easy improving on affordability can be. When you're the company that sets the affordability standard, that is. With our new features and design, plus our ease of maintenance, you've got the tractors that see you through a full day's work.
