Jamesway Technology Takes a Giant Leap Forward!

Quantum™ SYSTEM

BIG JIM.

FOR CONVENTIONAL SILOS AND BOTTOM UNLOADING SILO CONVERSION SYSTEMS (B.U.C.S.)

Big Jim QUANTUM™ is a totally redesigned heavy duty system that offers the best features of both Jamesway's Big Jim and B.U.C.S. unloading systems plus a whole lot more. Now no matter what type of forage silo you own - conventional or oxygen limited - you can look to the future with a system that truly handles big capacity and fast feeding better than any unloader top or bottom. A system that's easy to own with no doors to change or dirty chutes to climb. A system that makes it easy for you to control ration feeding. And a system that puts your tower silo investment to its best use far better than any type of bunker silo. With Big Jim QUANTUM you get:

- FASTER FEED UNLOADING - up to 35 tons per hour or up to 1,166 pounds per minute.
- HIGHER SILO CAPACITY - pack up to 35% more forage into your silo.
- GREATER FEED VALUE - ensile forage between 55% to 65% moisture content.
- EASIER MAINTENANCE AND REPAIR - less wear and tear and components are accessible.
