

KRAUSE CONSERVATION TILLAGE

FINISH TILLAGE SYSTEMS

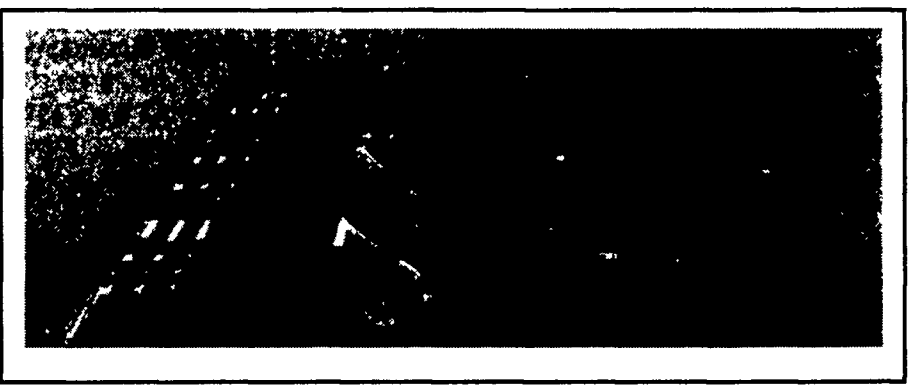

ONE PASS Tillage is REALITY

6150 XT LANDSMAN

Combines Primary & Secondary Tillage with Seedbed Finishing

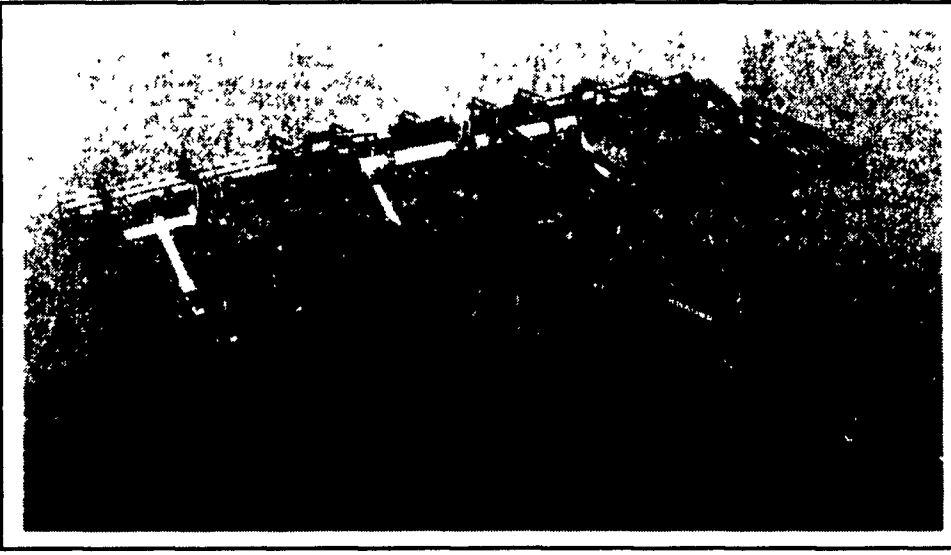

6300 LANDSTAR

Heavy Residue does not stop this Machine

Both Machines feature Krause's "2-Piece K-tine" - 180 pound point load - and/or the XT270 Shank - 270 pound point load - in combinations that till, and level the soil so that you are ready to plant after one pass. The LANDSTAR is designed to handle heavy crop residue without disking or shredding first. The trash moves on through. The secret to the finished seedbed is on the back - combination of rolling baskets and heavy-duty 16" spring tines level the ground and incorporate any trash that's present.

High-Residue FIELD CULTIVATORS

KRAUSE invented HEAVY-DUTY

2-Piece K-Tine provide superior 25" clearance for trash flow.
 Self-leveling tongue automatically levels the unit when changing depth.
 5 Rows of Shanks - 125" front to back.

The 4200HR Field Cultivator is the Conservation Leader
