ERLANDA FARM

LANCASTER CO., PA

WED., MARCH 5

Paul, Mary and Jason Sauder

Paul and Mary Sauder and family have been farming with the Harvestore® system since 1971. Haylage, high moisture shelled corn and corn silage are fed from four structures. Manure is processed through a 62x14 Slurrystore® System.

Last year Sauders upgraded their grain structure with a new ForceFlo™ unloader and a haylage structure was refitted with a new 30-in. trough and new Alliance™ unloader.
