Elizabethtown Fair Billboard Contest

The Elizabethtown Fair is offering \$200 to the 4-H, FFA, or other youth group or organization that creates the top billboard to publicize the Elizabethtown Fair.

The Elizabethtown Fair will supply each participating group with two sheets of plywood to complete their project. Each group will be expected to create a sandwich board to publicize the Elizabethtown Fair using their imagination and paint, decorations, etc. of choice.

Materials used must be able to endure weather. The message on the boards must include (1) The Elizabethtown Fair, (2) the dates of the fair, and (3) the location of the fair.

The completed boards are to be placed along a busy road, in someone's yard, farm, or place of business, with the owner's permission and must be readable from the road. The boards will be judged for creativity, neatness, location and the message given.

Registration forms may be obtained by calling (717) 426-2940 or 361-9016. All registrations must be postmarked by June 15 to the Elizabethtown Fair, P.O. Box 285, Elizabethtown, PA 17022. All billboards must be in place by July 21. To be judged a picture of the sandwich board must be submitted by August 1.

The group or organization's name, address and phone number and location of the billboard are to appear on the back of the submitted photograph. First place billboard will be awarded \$200, second place \$100, and third place \$50.

BRILLION COMMANDER SYSTEM

Versatile tillage tools such as Brillion's Soil Commander allows the use of Chisel Shanks or Deep-ripper Shanks to break up soil compaction. Front disk gangs and optional rear leveling disks cut residue, breaks clods, level the field and prepare the field to absorb moisture from melting snow and to reduce soil erosion. Brillion's Field Commander combined with a Brillion Pulverizer excels at creating the perfect seedbed for spring planting. C-Shanks or S-Tine Shanks leave a uniform mixture of soil and surface residue for the most efficient chemical incorporation. The X-Fold Pulverizer (shown below) breaks up clods, firms the soil without compacting, eliminates air pockets in the soil and levels the soil for optimal seed placement. For less time in the field and better yields, go Brillion.
