Sollenberger Silos Corp.

"HI-MOISTURE SHELLED CORN"

You know the advantages of hi-moisture shelled corn versus dry corn for animal feeding. So now consider the many advantages of **POURED CONCRETE** to store and protect your valuable grain.

"Our 6" thick concrete walls reflect 38% of light beams, resulting in **780** times more heat-resisting ability than steel, and **25** times more insulating power than steel."

"Our 6" thick walls have a very low leak potential compared to pre-fab silos of any kind, and a **very low** maintenance requirement."

"PROTECT YOUR CORN FROM THE HEAT."

These farmers from Virginia "switched" to our poured concrete silo to store their shelled corn and said: "Even during the hottest summer in our memory, the shelled corn from our poured concrete silo has kept its bright yellow color and has not heated. We have the best hi-moisture corn ever." (Cave View Farm, Inc., Weyers Cave, VA.)

MEMBER: International Silo Assn. - PA Forage & Grassland Council - American Soc. of Agric. Engrs. - Cro Storage Institute.
NO USED SILOS, NO REBUILT SILOS, NO PREOWNED SILOS. ALL NEW FOR YOU.
