

New Ag Classrooms Prepare Students For Real-World Challenges

(Continued from Page A23)

LEGS. Next year, about 170 students are enrolled in ag technology and mechanics classes.

According to Seibert, Lancaster County ag teachers have spent numerous days traveling around the Mid-Atlantic region, visiting educational programs in various schools.

Instructors at Manheim include Charles Ax, Heather Anderson, and Deb Seibert.

Solanco

At Solanco High School in Quarryville, planning also involved input from ag teachers. For Dr. Arba Henry, ag instructor, the challenge was to find information on how to properly plan a new facility.

Henry said he contacted Iowa and Iowa State University, in addition to Penn State, for information about what should go into the design of an ag mechanics and

(Turn to Page A25)

The Penn Manor ag science program includes more than 400 students grades nine through 12. Randy Charles puts the finishing touches on the paintwork for this John Deere 40, a 25-horsepower cultivating tractor, in the mechanics lab.

Straightening the fountain at Manheim are, from left, Lucinda Martin and Mandi Eisenhoth.

The Suzuki QuadSport 60 may be used only by those aged 12 and older. Adults must always supervise riders under the age of 16. All other Suzuki ATVs may be used only by those aged 16 and older. Suzuki highly recommends that all ATV riders take a riding course. We'll even pay for it. For safety and training course information see your dealer or call the SVIA at 1-800-852-5344. ATVs can be hazardous to operate. For your safety always wear a helmet, eye protection and protective clothing. Never ride on paved surfaces or public roads. Never carry passengers or engage in stunt riding. Riding and alcohol or other drugs don't mix. Avoid excessive speeds. Be extra careful on difficult terrain. Along with concerned conservationists everywhere, Suzuki urges you to TREAD LIGHTLY on public and private land. Preserve your future riding opportunities by showing respect for the environment, local laws and the rights of others when you ride.

Ashland, Ohio 44805

Getting rid of those annoying hang-ups in your operation is easier than ever.

The new SURGE® One Touch™ makes stanchion milking as easy as this. A lightweight, gun-grip design integrates the milk line and pulsation connections into one simple process. Yet it's built incredibly tough to handle the real world demands of the dairy barn.

Most importantly, One Touch brings high-tech automation to stanchion operators with two optional management modules.

The TIMEKEEPER™ II module signals you when the cow finishes milking and displays how long she took to milk...promoting fast, consistent milking that leads to better udder health.

The Milk Yield Module measures individual cow production and milking time, allowing instant analysis of each cow's performance.

By putting today's production information at your fingertips, the SURGE One Touch lets you capture your cow's performance in the palm of your hand.
