

Soybean Inoculants Part Of Field Discussion

LEESPORT (Berks Co.) — Handling new soybean inoculant products, viewing a response to these products, plus current issues

about soybean production will be the topics for discussion on July 9 at the David Bitler Farm, Fleetwood, 10 a.m. to noon.

Inoculants are a recommended practice when growing soybeans, especially on soils with no past history of growing soybeans. But

producers have experienced mixed results due to difficult handling of the inoculant, especially when growers are pressed for time in the field.

Dr. Elwood Hatley, Department of Agronomy, Penn State Univer-

sity, will be present to lead the discussion along with Bitler. Growers are encouraged to attend and share their experiences.

Directions to the field are as follows: Rt. 222 to Rt. 662 S. to Fleetwood. At first stop sign, Main Street, Fleetwood, turn left. Travel through and out of town on Main St. (becomes Fleetwood-Lyons Rd.) 2 1/2 miles. Turn right onto Deka Rd. 200 feet beyond Weaver's Hardware. Vista Grande Farm sign is at this road. Continue on Deka Rd. to first farm on right. Park in farm drive by machine shop.

Meyer

MEYER FORAGE BOXES 3000-4000 SERIES

Self-unloading TSS Forage Boxes

Total Speed System - The Only One of Its Kind

MEYER FRONT & REAR UNLOAD FORAGE BOX
