Beitzel Spraying is now distributing:

SAFECIDE® BRAND IC

For the control of darkling beetles, hide beetles and flies in poultry houses and for control of fire ants

Advantages:

- Efficacious—boron-based SafeCide® Brand IC kills larvae and adults. Breaks the beetle life cycle and reduces diseases carried by beetles
- Contains an extremely safe and effective pest control agent (99% orthoboric acid)—larvae and beetles die 3 to 5 days after contact and ingestion.
- Provides long-lasting residual results. Keeps on working up to 12 months—longer than most available products.
- Provides an effective barrier. Kills larvae and adults as they emerge.
- Cost effective—low cost based on per day of activity.
- Can be applied as a dust or spray. Flexible application options let SafeCide® Brand IC fit easily into your particular management program.
- EPA approved, ecologically friendly—non-carcinogenic, no toxic residues. Safe to be applied by humans.
- Is field proven. Field studies* show heavily infested farms treated with SafeCide® Brand IC have better feed conversion rates, increased weight gains, greater livability, and fewer condemnations than untreated farms.
- No insecticidal resistance reported.
- Retards the growth of Aspergillus in the litter.
- Approved for use in the control of fire ants and flies.

STARTED CAPONS AND CAPONIZING

Receive healthy 3 1/2 week old surgically caponized chicks OR We will come to your farm to caponize your chicks

THE NEW, IMPROVED LEWIS POULTRY HOUSEKEEPER IV.

WHY MORE POULTRY GROWERS ARE CHOOSING THE POULTRY HOUSEKEEPER.

- Removes caked or wet litter while leaving dry litter in the house.
- Aerates and fluffs the remaining litter to reduce ammonia and improve drying time.
- Stock piles or spreads litter after leaving the poultry house.
- Completely cleans out your poultry house when needed.
- Loads new litter outside the house and spreads it back in the house.
- 100% Hydraulic - No cumbersome PTO shafts
