

## Visit PFGC Hay Show At Ag Progress

**ROCKSPRING** (Centre Co.) — The PFGC will again sponsor the Hay Show at Ag Progress Days (Aug. 12-14).

The location of the Hay Show and the Crops and Soils Tent is again at the east end of East Fifth Street. In addition to the Hay Show, there are small plantings of different forage grasses, herbicide resistant corn and soybeans, and insect resistant corn at this location.

Plan now to enter your hay samples in the show. By entering the Hay Show at Ag Progress Days, you will automatically be entered in the Hay Show at the Farm Show next January.

The show is not only fun, but you also will receive quality analysis for each sample entered. An entry form is enclosed. Additional forms can be obtained from your county extension office.

### RULES

1. Entries officially close at 10:00 a.m., Tuesday, August 12, 1997. However, to facilitate handling of samples, exhibitors are urged to deliver their samples to the hay show tent on Monday, August 11. Hay shipped or delivered prior to August 1 should be clearly identified as Hay Show Sample and addressed as follows:  
Dr. Marvin H. Hall  
Dept. of Agronomy  
116 Ag. Sci. and Ind. Building  
Penn State University  
University Park, PA 16802
2. No entry fee will be charged.
3. The hay shown can not be from the seeding year and must have been grown by the Exhibitor in Pennsylvania in 1997.
4. Exhibitors may enter in as many classes as they wish, but no exhibitor shall make more than one entry in a class, either in his own name, the name of the farm, or the name of some other person.
5. Exhibitors must attach an entry blank, giving name, address, county, social security number and class in which the exhibit is to be entered. Exhibitors can secure additional entry blanks at their County Agricultural Extension Office.
6. LONG HAY FROM RECTANGULAR BALES ONLY THAT HAS BEEN CURED (adequately dry). An exhibit shall consist of a bale section between 6 to 8 inches thick and weighing at least 6 pounds for legumes and 5 pounds for grasses. Undersized or moist samples will be disqualified. PLEASE TIE THE SAMPLES WITH TWINE.

## CR Rotary Tedder Rake

**100% good clean raking**

The CR Rotary Tedder Rake provides effective windrowing of two swaths up to 7". It also windrows spread crop into one well-shaped and stable swath.

**Unique swath rollers**

JF's patented swath rollers form a perfect swath for baler or forage harvesters.

Adjusting from spreading to raking is quick & easy - simply change the position of the rake tines by using a spring loaded pin.

Working width, raking	9'10"
Working width, spreading	10'6"
Transport width	8'10"
Working speed, max.	10 MPH
Power consumption	16 HP
Weight	715 lbs.
Tire dimension	400x8-4
Number of rake tines	2x8
