PUBLIC AUCTION

MON. OCT. 6 1997 @ 10:00 AM

SALE OF: MEADOW MIST FARMS
• FARM MACHINERY • CATTLE

Machinery @ 10:00 am - Farm @ 10:30 am - Cattle @ 12 Noon

MEADOW MIST FARMS is located in western Perry County, the so-called "Garden Spot" of the county. We are located in central PA approx. 25 min. from Carlisle and 25 min. from Harrisburg. Farm location 1/2 mile south of Loysville on Rt. 850. This property is adjacent to the Perry Health Center, a satellite clinic of the Carlisle Hospital and is staffed by 6 physicians, one dentist and an optometrist. The development rights on both farms will be donated to Perry County Farm Land Preservation program. The main farm including all the land north of Rt. 850 (165 acres m/l) will be sold at public auction on 10/6/97 and will be subject to this agricultural conservation easement. Final survey at sale date.

HOUSE: 12 rooms, 2 1/2 baths, brick construction walls 13" thick, completely remodeled, steam heat, separate well, 150 amp service, new asphalt shingle roof, 3 chimneys Cellar set up as apartment with Jacuzzi tub Modern kitchen on main floor with built-in Kitchen Aid dishwasher Attractively landscaped with 2 huge 50' high white oak trees out front and Moraine locust trees on the other sides These trees provide a complete leaf canopy for the home during the summer Door yard between house and barn completely concreted to 2-car garage and barn

OLD ORIGINAL FRAME BARN: (50' x90'), 40 plus feet to peak of roof (Wood roof shingles new in 1972-perfect condition) This may be the largest old frame barn in Perry County-it has 3 planked barn floors & 2 hay mows Vertical hay elevator (New Holland) and 85 foot conveyor thru top of barn (switches-motor starters etc.) NEW ADDITION TO BARN: (30'x90')w/conventional hay feeder through middle Entire floor (80'x90') is concreted Concrete feed lot 44'x130' Cattle handling facility adjacent and contiguous w/feed lot (30'x65') divided in 2 sections Big Pole Barn at end of feed lot (60'x104'); Farm Shop (32'x54'), Calf and box stall barn (24'x72'), Loafing Barn and or hay storage building (40'x60'), 3 Silos arranged in line with feed lot, WATER-2 Wells w/all pipes interconnected

EQUIPMENT New Holland forage harvester #790 (electric control of discharge spout and feed rolls) excellent condition NH 890W windrow attachment for #790, and NH 824-2 row head for #970 (like new); Zimmerman 36' 380 Series portable elevator (like new), (2) NH "Crop Carrier 8" forage wagons, 1 w/dual rear axle and 1 Grove 2 beater forage wagon - no roof; NH Super lift #26 forage blower, New Idea #323 single row corn picker (very good condition), International #56-4 row corn planter w/insecticide attachments,(3) corn wagons-gravity flow boxes on running gears, Misc items such as MF 135 side mounted mower for parts

CATTLE: 175 Performance Females sell, 95 Producing Cows, 42 Open Heifers, 30 Bred Heifers In order to measure our performance program against the rest of the breed, we tested over 160 bulls at central test stations in the 1980s Our bulls have topped these test stations as individuals and sire groups as well as in total dollars The 1990s dictated a "time for change" and we decided to performance test our bulls at home, therefore, by keeping our bulls in their calf crop contemporary group of origin we were able to make their yearling performance data much more meaningful The bulls were sold in conjunction with Tarki River Angus at Carinda, IW, Weaver Angus, Peoria, IL, and Middlefield Farms, Fort Collins, CO For the last 8 yrs., the nutritional management of the herd has been one of intensive rotational grazing for 7 mos of the year and haylage and hay for the balance of the year Total biosecurity of the closed herd

A real world testimony to the acceptance and strong demand of Meadow Mist genetics in the heart of the beef industry. The 1997 bull calves produced at Meadow Mist are again slated for the Profit Maker Bull Test
