## High Quality Knight Spreaders Come From Binkley & Hurst Bros., Inc.

Hammer Discharge  
**Patented Free Swinging Hammer Expeller**

The expeller on all ProTwin models features 15 forged steel hammers mounted on a 2 1/2" shaft. The hammers pivot on 1/2" bolts with nylon anti seize type bushings that allow free movement. The expeller rotates at over

Rear Drive Compartment\*

800 RPM allowing each eight pound hammer to swing down into the material peeling it off and slinging it underhand in a fine spread pattern with no clumps. The 3 wide free swinging hammers absorb shock and tolerate most foreign objects. Each hammer is faced with a work hardening manganese steel wear plate for longer life and low cost replacement. The adjustable shroud allows easy hammer clearance setting for optimum spread pattern width. This proven hammer expeller design enables fine spreading control and material calibration through the combination of the hydraulic door opening and ground speed

\*Shields removed for illustration only  
Do not operate without shields in place and functioning
