Serving The Industry For Over 35 Years

(Continued from Page A10)

\* Spokesperson qualifications:

1. Speaking ability.
2. Innovation as a forage producer.
3. Participation and/or leadership in local, state, and/or national forage council activities.
4. Soundness of the farming operation.
5. Briefly (two paragraphs) describe the Spokesperson's farming operation.

All persons who qualify and who are chosen to participate in the PFGC Forage Spokesperson Contest in Tunkhannock will receive a cash honorarium from the PFGC. The winners at the November 18 contest will receive the following cash awards:

FIRST PLACE — \$300  
SECOND PLACE — \$200

THIRD PLACE — \$100  
The First Place winner will then represent PA and the PFGC at the 1998 American Forage and Grassland Council Conference in Indianapolis, IN on March 8-11, 1998 in the N. America Forage Spokesperson Contest. AFGC conference and travel expenses will be covered

by the PFGC. All participants in the AFGC contest will receive an honorarium and the first three place winners will receive cash awards and plaques. The Second Place winner in the PFGC contest will serve as the alternate from PA.

The PFGC and AFGC contests will be run and judged using the same rules and scoring procedures. Talks must be no longer than ten minutes in length. Judges will then ask the spokesperson questions about their farm operation for an additional two minutes. Contestants are encouraged to use color slides of their farm operation as part of their presentation and are encouraged to work closely with their County Extension Agent, crop advisor, industry representative or a PFGC Board Member in the preparation of their presentation.

Pennsylvania forage producers and Pennsylvania forages are second to none in quality. Let's show the other forage producers across N. America what high quality forages have done for the dairy and livestock industry in Pennsylvania!

Mike Galbraith  
Chairperson — PFGC Forage Spokesperson Contest  
Blair County

... For New Construction Why Not Examine The "Chimtek Difference."

Chimtek Inner Liners are made of volcanic pumice and high-temperature refractory cements. Its round shape provides even temperature inside flue and contributes to efficient flow of smoke and flue gasses. The volcanic pumice in Chimtek liners adds considerable insulating value.

All three chimneyliner systems distributed by DS Machine Shop are of super design, super performance, and super value. With all their advantages these chimney systems often cost no more than ordinary chimneys. Write or call us for more specific liner information.
