

**Stand Up  
To Cold**

**CONCRETE  
Problems?  
Ritchie Solutions.**

**54" and 90"  
Units Available**

**Repeat Maintenance**  
The WaterMaster from Ritchie is built for long life... and we'll guarantee it for 10 years. With its one-piece body construction of durable impact-resistant roto-cast polyethylene plastic, the WaterMaster won't deteriorate like concrete.

**Dependable, Economical Water Delivery**  
Sealed urethane foam insulation protects water from cold, allowing the unit to operate longer before the constant flow is turned on, creating a reduction in water waste. An optional supplemental electric heater is available. Ritchie's nonmetallic valve delivers 18 gallons of water per minute at 60 psi, with 30 years of time-tested reliability.

**Easier to Maintain**  
WaterMaster fits over an existing stem wall and unlike concrete is lightweight and easy to install. Built-in overflow and drain eliminate troublesome standpipes. Plus, the WaterMaster is easier to clean and service than concrete. Top cover opens without tools, for ease of service. Smooth, rounded trough slopes toward a protected 3" drain for fast, easy cleaning.

Durability, easy maintenance and reliability — with less water waste. All backed by 75 years of dependable service. Guaranteed. Just ask a user, then...

**Ritchie®**

Whether you're watering polar bears in northern Canada or livestock anywhere in North America, Ritchie fountains stand up to the cold. Dependability, Three Ways Ritchie's strategically located heating equipment produces efficient heat transfer to keep water flowing in cold temperatures. Our thermostats can be adjusted to keep water at the proper temperature. Plus, our non-metallic float and valve have proven their resistance against corrosion and cold, with 30 years of time-tested reliability.

With a Ritchie fountain, you can be confident the water's flowing — standing up to even the coldest weather.

**LARGE or SMALL  
We Water Them All**

The Thrifty King electric-free fountain from Ritchie has a large drink opening and a low drinking height, this makes it easier for both large and small hogs to drink. If a drink opening isn't needed, Thrifty King's unique construction allows you to stop the flow of water to that compartment. Plus, the large access opening makes for easy installation, adjustments and service.

**Stand Up to Abuse**  
Thrifty King's reinforced, self-centering, insulated lid stays put - won't buckle or pop off. Plus, a 3/8" stainless steel stationary hinge rod and bit guards add durability. Made from one-piece body construction, Thrifty King is built to take hog lot abuse.
