

Solutions In The Seed™

Corn borer protection and top performance.

TMF113

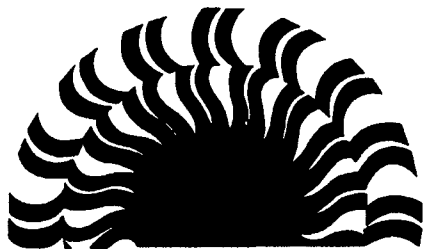

113-day RM A fuller-season hybrid that produces tremendous yields of highly digestible, nutrient-dense feed. Very tall with extra-wide leaves and moderately low ear placement. Prefers fertile soils and a final stand of 25,000-27,000 plants per acre.

NEW

TMF114

114-day RM The first and only hybrid bred exclusively for silage that also carries the NGBt1 gene to protect against first and second brood European corn borer damage. Very large, leafy plants with excellent staygreen. Manage this hybrid as you would TMF113. Prefers fertile soils and a final stand of 25,000-27,000 plants per acre.
