

Farm Show Scholarship Foundation Announces Recipients

(Continued from Page A38)

Bucks County, is a 1997 graduate of Pennridge High School. She is currently majoring in biology at the University of Tennessee in Knoxville, Tennessee.

She has shown market swine and goats for two years at Farm Show, and Jersey dairy cattle for six years. She was a member of the Montgomery County 4-H Livestock Club for five years, and was an active member of the Montgomery County 4-H Dairy Goat Club serving as the vice-president and newsletter editor.

She also was the 1996-1997 youth delegate for the Montgomery County 4-H Cabinet.

While attending college, she participates in the University of Tennessee Dairy Club, Block and Bridle Club and is involved in Collegiate 4-H.

Michalik plans to use her education toward being an elementary education teacher. She hopes to remain involved in 4-H by giving educational speeches about agriculture, dairy goats, livestock, and to become a dairy goat and livestock roundup judge.

Beth A. Nebzydoski

Beth A. Nebzydoski, 19, is the daughter of Henry and Jean Nebzydoski, Pleasant Mount, Wayne County. She is a 1995 graduate of Forest City Regional High School.

As a biology major at the University of Scranton, she hopes to eventually become a veterinarian.

She is a 10-year member of the Pleasant Mount Go-Getters 4-H Club and has completed various projects in market swine and beef, dairy cows and heifers, and veterinary science.

For the past seven years, she has shown market swine at the Farm Show.

Having served as the president and secretary of the 4-H club, she also was the Wayne County dairy maid. During her year as dairy maid, she participated in dairy promotions.

"I strongly believe that my 4-H projects have helped me discover my interests and lead me to my career choice. In my desire to learn more and to be in a position to improve the genetics and health of the animals," Nebzydoski said.

Curtis R. Stockdale

Curtis R. Stockdale, 20, is the son of Dennis and JoEllen Stockdale, Dayton, Armstrong County. He is a 1996 graduate of Dayton High School and is currently majoring in agriculture at the Kansas State University.

Having shown at the Farm Show for nine years, he has been awarded reserve champion steer

in 1992 and 1996 and grand champion in 1995. As a true veteran of the event, he has won either grand champion or reserve champion for steer at the Dayton Fair since the age of eight.

He is currently the vice-president of the Junior Polled Hereford Council. He is also a

brother of the Alpha Gamma Rho, an agricultural fraternity.

Stockdale said, "I believe that education is very important and serves as a powerful tool in life. Equipped with my 4-H experiences, and a college education, I plan to make a positive contribution to the livestock industry and to our society."

SHEEP: 1 SLAUGHTER LAMBS NO MARKET TEST.

GOATS: 0 NO MARKET TEST.

Farm Safety

Just Kids

Prior to the establishment of Farm Safety 4 Just Kids, a study by the Harborview Injury Prevention and Research Center estimated that 300 children and adolescents were dying each year from farm injuries, and that another 23,500 were suffering nonfatal trauma. An update of that study now indicates that the farm fatality rate for children and adolescents has declined by 39 percent.

With the help of Cargill Hybrid Seeds and other corporate sponsors, Farm Safety 4 Just Kids is celebrating its 10th year of advocating the prevention of farm-related childhood injuries, health risks and fatalities. Through educational programs and a large network of grassroots volunteers this nonprofit organization is leading the way to a safer future for the children of today's farming communities.

For more information about Farm Safety 4 Just Kids, call 1-800-423-5437.

LEAVE IT TO A SEED COMPANY TO FIGURE OUT A WAY TO MAKE YOUR MILK PRODUCTION GROW.

A year ago, we introduced FullTime™ forage. A remarkable new feedstuff that can dramatically boost a herd's milk production. Now, a year later, university trials show that feeding FullTime to top producers on a high-fiber diet can increase their already high production levels by as much as 10%. So, if you're feeding a high-fiber ration, consider FullTime. Nothing can match its digestibility, forage quality or increased milk production. No wonder we say it's the biggest thing to hit dairy since automation. To learn more about FullTime or any of our other forage quality products, see your nearest Cargill dealer or visit our Web site, www.cargill.com/seed.
