Make check payable to Pennsylvania Forage and Grassland Council.

Detach this application and mail along with your check to Richard Hann, Executive Director, PFGC, P.O. Box 355, Hershey, PA 17033

HERSHEY (Dauphin Co.) — Pennsylvania Forage and Grassland Council (PFGC) has announced new membership rates for 1998.

The Council, with your membership and support, can accomplish much toward a better forage industry, environment, and community.

It's a big challenge and the PFGC needs your help. By becoming a member now, PFGC can serve an even more active role in support of the forage industry.

The PFGC, formed in 1960, is made up of individuals and organizations that are interested in forage and grassland-based agriculture. The PFGC is dedicated to the production

and utilization of quality forage and grassland.

The PFGC works in a variety of ways to promote the industry, through publication of Pennsylvania Forage and Grassland News, through the publication of *Foraging Around*, and sponsoring individual workshops, training events, field days, Ag Progress Days, leadership, and other activities.

Every member receives the Pennsylvania Forage and Grassland News, the Hay and Forage Grower magazine, and a PFGC membership directory.

So to become part of a growing industry, use this membership form included here to sign up now.

## Forage Variety Trials Report Available

STATE COLLEGE (Centre Co.) — The 1997 Penn State "Forage Variety Trials Report" is complete. Copies are free and are available through your county extension office.

This year's report contains variety

performance information on alfalfa, red clover, and many cool-season grass species. If you will be seeding forages during the next year, this report will be a valuable asset in your species/variety selection process.

## Silo Unloader Technology Takes a Giant Leap Forward!

CALL NOW FOR

## SPRING SPECIALS on

### SIMPLY THE BEST!

You know tower silos are the best way to store feed. Now Jamesway® gives you the best way to fill and feed fast, with great reliability. Plus, you get:

- Better Feed Quality
- More Feed Storage
- A Clean Chute

The all-new industrial-design Big Jim QUANTUM System can be installed in any type of 20' to 30' forage silo... conventional or oxygen limited. And since it requires little maintenance and has no doors to change, you eliminate trips up and down the silo.
