- Added improvements provide the versatility to incorporate chemicals, manage residue and control weeds
- Precision depth control across the entire working width for uniform seedbed preparation
- Better penetration with less weight cuts your fuel costs
- You can count on us for quality tillage equipment, genuine Case IH parts, professional service support and flexible financing.
- Shallow concavity blades reduce compaction
- Open frame design allows residue to pass through machine smoothly and quickly
- 19 to 33 foot versions available in standard flex wing or cushion gang versions

When It Comes To Handling Seed Grains, Binkley & Hurst Bros., Inc. Invites You To

TRY A LITTLE

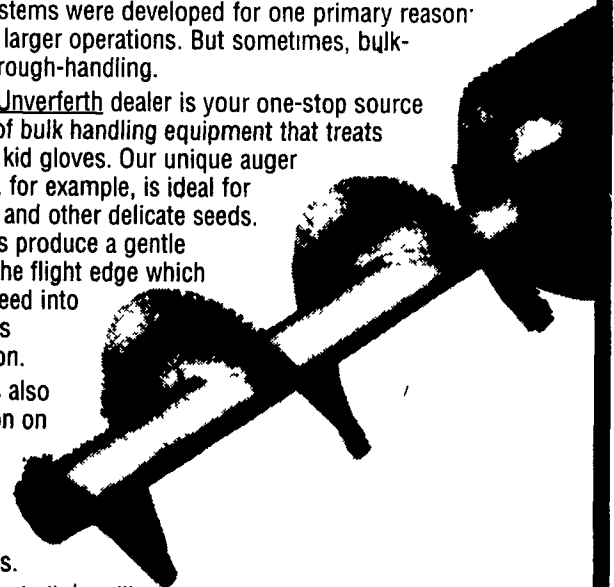

TENDERNESS

Bulk-handling systems were developed for one primary reason: greater efficiency in larger operations. But sometimes, bulk-handling can mean rough-handling.

That's why your Unverferth dealer is your one-stop source for a complete line of bulk handling equipment that treats seed and grain with kid gloves. Our unique auger with brush-flighting, for example, is ideal for movement of beans and other delicate seeds. The compact bristles produce a gentle sweeping action at the flight edge which smoothly conveys seed into the planter and limits varietal contamination.

Brush-flighting is also available as an option on Unverferth's 6-inch truck and grain box augers that serve your planting and harvesting needs.

In fact, for all your bulk-handling system needs, see your Unverferth dealer today. Because a little tenderness can take you a long way.
