Case IH 3950 Disk Harrow IT LEVELS, LEVELS, LEVELS!

This special offer is good on Case IH Early Riser planters, grain drills, disk harrows, field cultivators and more.

Tillage Practices Change. A Seed's Requirements Do Not.

An Early Riser Planter Is "The Germinator"

Remember. What's most important is the combination of planting to moisture, uniform depth control, seed-to-soil contact, uniform soil pressure, accurate population and seed spacing. Early Riser planter makes a difference. That means a one- to seven-day faster emergence, a 7 bu per acre average yield advantage in corn. That is real value.
