# A FORCE Field Takes Corn To A New Level.

No other corn insecticide controls tough insect pests like rootworms, cutworms, wireworms and white grubs better than FORCE insecticide. But that's just one reason why farmers who've experienced a FORCE Field of protection in no-till, minimum till and conventional tillage systems stick with it year after year.

The other big reason is that FORCE is safe to birds, earthworms and you. Our 3G formulation lets you handle half as much FORCE as other insecticides. To save you time, money and cut your insecticide exposure in half.

The newer pyrethroid chemistry of FORCE gives you better control over stalk-borer, ear-ear and other pest insects. And FORCE doesn't interact with other field insecticides.

Don't let the tough bugs get the best of you. Try a FORCE Field. Call 1-800-735-2200 for more information. For a FREE FORCE Field, call 1-800-735-2200.

**Force 3G**  
insecticide
