**NEW FOR THE '98 SEASON**  
(for our horse farmers)

**Accurate seed spacing and precise depth increase yield potential.**

- Time-proven positive air metering system and edge drop seed discs gently singulate seeds to eliminate wasteful doubles
- The short 18" seed drop makes seed spacing accurate
- Consistent seed depth is assured through our independently operating walking beam gauge wheels.. adjust in 1/8" increments.
- Low air pressure gently handles fragile seed coat
- Fewer moving parts reduce maintenance and downtime
