**Brillion**

## PULVERIZERS

Brillion Pulverizers provide the ideal seedbed by crushing clods, eliminating air pockets and firming the soil for better soil-seed contact. This allows moisture to be drawn into the plant by capillary action. The loose surface mulch retards evaporation and conserves moisture.

Brillion offers more than 92 combinations of widths and roller-wheel designs, making it the leader in pulverizer sales.

Brillion Pulverizers are available in widths from 6' up to 46' to accommodate any size operation. Brillion X-fold Pulverizers (pictured below) range in size from 19' to 46'.
