## YOU DON'T HAVE TIME FOR ANYTHING LESS THAN THE PERFORMANCE OF A TYE

### PASTURE PLEASER

Tye's proven 4 step NoTill Seeding System lets you move quickly through tough NoTill conditions, planting a full 5' or 7' in each pass. A big self-cleaning 2 bu. ft grain box feeds our exclusive internal flute seeders to assure gentle, accurate seed metering. And the HD coulters and Double-Disc Row Units provide positive seed placement. Add these features to versatile options like legume, native grass, and fertilizer attachments, and you've got a quality performer in pastures, haylands and field crops.

## Both Pasture Pleaser® and Autoreset Paratill® in stock now.

## AN UNSTOPPABLE COMBINATION: PARATILL WITH AUTORESET

### AUTORESET PARATILL®

Tye® Paratill's automatic hydraulic reset makes deep soil loosening smoother than ever.

There's no stopping as Paratill breaks up soil compaction and plow pans in a single pass without destroying residue. The patented 45° angled leg gently lifts the soil and

allows it to fracture along its natural planes of weakness. This promotes deeper water infiltration and improved root growth for healthier, drought-resistant crops.
