

Mow and condition worry-free

It's easy with the "1411" Discbine® disc mower-conditioner. The "1411" gives you the perfect combination of mowing reliability, conditioning quality and no-hassles servicing.

- Independent modular cutterbar — eight disc modules are sealed in their own oil and connected by independent drive shafts for easy maintenance or repair
- 200 hours between disc gearbox oil changes — twice as long as most other models
- Mows through thick, tangled and wet crops
- Plug-free performance — no stopping or raising the header for slugs

Give yourself some peace of mind with the Model 1411 Discbine® disc mower-conditioner

New Holland lets you bale wet or dry

If you want to make hay, straw or silage, look no further than the New Holland Model 644 Silage Special round baler. The "644" is filled with features you demand so you can bale the way you want:

- Bale-Slice™ option (on Fastnet™ mode) cuts the crop as the bale is being formed so it's easier to feed or grind
- Wide, floating pickup for large windrows
- Endless belts for added durability in tough crops

Stop in today and start rounding up your fields.

Jim Garner, Montrose, right, receives the Outstanding Pasture Producer Award from Dick Kauffman.

PFGC Honors Producers

(Continued from Page 6)

Hostetter served on the board of directors and as president of the PFGC. He has continued his interest and support of the PFGC since completing his term on the board in 1990.

The Special Award is the highest recognition given by PFGC. It is presented to an individual or company that has made a major contribution directly to the PFGC as well as an "outstanding contribution to Pennsylvania's forage and livestock industry and/or conservation farming," Hall indicated. The recipient's contribution may have been in production agriculture, industry, research, extension, teaching, or other public service.

The award was presented by Dr. John E. Baylor, retired forage specialist, Penn State.

This year's Extension Award recipient is Paul Craig, Dauphin County extension agent.

Craig has been active "in meeting

the information and educational needs of producers in Dauphin County as well as the southeast region of Pennsylvania," noted Hall.

Craig has organized and taught at several forage-pasture related schools in the region, including as a major organizer and facilitator of the Pennsylvania grazing conferences.

"Without the help of Paul Craig, the grazing conferences would not be the educational force they have become," said Hall.

"He has always been an advocate of multiplying his educational efforts through the involvement of others who work with producers."

Along with classroom and conference-type educational activities, Craig has also conducted on-farm demonstrations and field days.

Noted Hall, "Paul Craig exemplifies the best an extension agent has to offer."

Bale It Wet or Bale It Dry- Simply Bale It!

- 4' Wide X 4' Diameter Bales
- Bale Dry Hay or High Moisture Hay
- No Belts to Break
- Simple to Operate
- Low Maintenance
- Fewer Moving Parts*
