Upland Farm Named Historic Angus Herd

ST. JOSEPH, Mo. — The Upland Farm Inc., Chester Springs, Pa. has been named a Historic Angus Herd by the American Angus Association for having been in the continuous production of registered Angus cattle, in the same family, for more than 50 years.

John Kramer, who is now deceased, started the herd in 1946. Early guidance was given to him by Herb Schiffer, a fellow Pennsylvania Angus breeder. The herd

was built with Bandolier bulls, and the foundation cows became predominantly Bandolier breeding on both sides of the pedigree.

Today the herd is owned by John Kramer's children — John Kramer Jr., Barbara Riuta and Heather Johnson. A special certificate, signed by the president of the American Angus Association, has been presented to the family in recognition of the herd's historic status.

Annual Ryegrass Field Day Set

KEEDYSVILLE, Md. — A field day/pasture walk will be held from 10 a.m. to noon on Wednesday, April 22 here at the University of Maryland's Western Maryland Research and Education Center (WMREC).

The field day will focus on the use of annual ryegrass to increase agricultural profitability for livestock producers. Seventeen ryegrass varieties and triticale are being managed under both a pasture system and a cut and carry system to evaluate yield, palatability, winter hardiness, and management considerations necessary for highly effective use of this promising new forage in this area.

For more information, contact Stanley W. Fultz, Extension Agent, Dairy Science, (301) 694-1594 ext. 3578.
