 Program Timing April 1, 1998 till June 27, 1998

**Today's Most Advanced Disc Mower Conditioner**

**GEHL Model 2365**

10' Cut In Stock For Immediate Delivery

Long hood for less wind turbulence for cleaner cutting in thin crop stands.

A Gehl disc mower conditioner delivers exceptional cutting and conditioning, even in your most difficult crops and conditions.

Rugged high-speed cutting discs, spinning at 3,000 rpm, easily slice through down and tangled crops or dense wet undergrowth to deliver a clean cut

The cut crop is delivered to Gehl's specially designed intermeshing rubber conditioning rolls for thorough, yet gentle crop conditioning. They'll condition your crop for fast drying.

**ONLY FROM GEHL**  
 The gear driven cutterbar (outlined in white) is protected. Gehl shields the cutterbar from rocks or other field obstructions with full-width skid shoes.

Easily replaceable disc drive assemblies. Drive stations can be removed individually for quick servicing. Bearings are sealed in grease. The patented Protectadrive™ system protects the cutterbar gear train from damage in the event of disc contact with major field obstacles.
