

QUESTION—Helen Heavner, Upper Tract, W.V., is looking for flavoring or an address for Flavor Mill Artificial Butter Flavor. The address on the box is Laguna Hills, Calif., which isn't complete enough to send an order.

QUESTION — Helen Heavner, HC60 Box 4, Upper Tract, W.V. 26866, is looking for spin curlers for home perms. She needs all plastic with no rubber bands. The rubber band breaks her hair. She found some for body perms, but she wants smaller ones. She is willing to buy new or used ones.

QUESTION — Mildred Anderson, Dover, wants to know what makes lotion made from goat's milk separate from the other ingredients. She used beeswax, coconut oil, sweet almond oil, glycerine, and goat's

milk. She had combined the beeswax and oils in a pan of water until melted, added warm milk and glycerine and beat with a mixer until cool. After it sat for awhile, the milk separated from the other ingredients. She would appreciate a recipe that works or ideas on how to make the recipe she has work.

QUESTION — A reader needs to relocate gladiolus bulbs that have already sprouted about 6 inches tall. Should she let the bulbs dry before replanting or plant them right away?

QUESTION — Shirley Schwoerer, Wysox, has a Plett Pan, which is a cast iron with seven shallow indentations and no lid. A recipe is attached that appears to be a thin pancake recipe, but no other instructions. Do any readers have more information about Plett?

QUESTION — Roland Kamoda, Monongahela, wants to know where to find a thumb latch and catch for a log cabin door.

QUESTION — Timothy Diehl, Bloomsburg, is looking for a company that sells parts and a 90-inch blades for a #14-277 Workace Bandsaw made by J.D. Wallace & Co., Chicago.

QUESTION — Patty Clouser wants to know the value of old Briggs and Stratton engines and of a Snappin Turtle lawn mower with turtle head Model #2½ ST19 Serial # 7820.

CONCRETE Problems? Ritchie Solutions.

54" and 90" Units Available

Rugged Construction

The WaterMaster from Ritchie is built for long life and we'll guarantee it for 10 years. With its one-piece body construction of durable impact-resistant roto-cast polyethylene plastic, the WaterMaster won't deteriorate like concrete.

Dependable, Economical Water Delivery

Sealed urethane foam insulation protects water from cold, allowing the unit to operate longer before the constant flow is turned on, creating a reduction in water waste. An optional supplemental electric heater is available. Ritchie's nonmetallic valve delivers 18 gallons of water per minute at 60 psi, with 30 years of time-tested reliability.

Easier to Maintain

WaterMaster fits over an existing stem wall and unlike concrete is lightweight and easy to install. Built-in overflow and drain eliminate troublesome standpipes. Plus, the WaterMaster is easier to clean and service than concrete. Top cover opens without tools, for ease of service. Smooth, rounded trough slopes toward a protected 3" drain for fast, easy cleaning.

Durability, easy maintenance and reliability — with less water waste. All backed by 75 years of dependable service. Guaranteed. Just ask a user, then

LARGE or SMALL We Water Them All

The Thrifty King electric-free fountain from Ritchie has a large drink opening and a low drinking height. This makes it easier for both large and small hogs to drink. If a drink opening isn't needed, Thrifty King's unique construction allows you to stop the flow of water to that compartment. Plus, the large access opening makes for easy installation, adjustments and service. Stands Up to Abuse. Thrifty King's reinforced, self-centering, insulated lid stays put - won't buckle or pop off. Plus, a 3/8" stainless steel stationary hinge rod and bit guards add durability. Made from one-piece body construction. Thrifty King is built to take hog lot abuse.
