**HI-MOISTURE SHELLED CORN  
SILO WITH HOPPER FLOOR**

**"Hi-Moisture  
Shelled Corn"**

You know the advantages of hi-moisture shelled corn versus dry corn for animal feeding. So now consider the many advantages of **POURED CONCRETE** to store and protect your valuable grain. "Our 6" thick concrete walls reflect 38% of light beams, resulting in **780** times more heat-resisting ability than steel, and **25** times more insulating power than steel."

"Our 6" thick walls have a very low leak potential compared to prefab silos of any kind, and a **very low** maintenance requirement."

**"PROTECT YOUR CORN FROM THE HEAT"**
