

A Step Above the Rest

Kuhn Disc Mowers and Mower Conditioners

Are as Unique as You

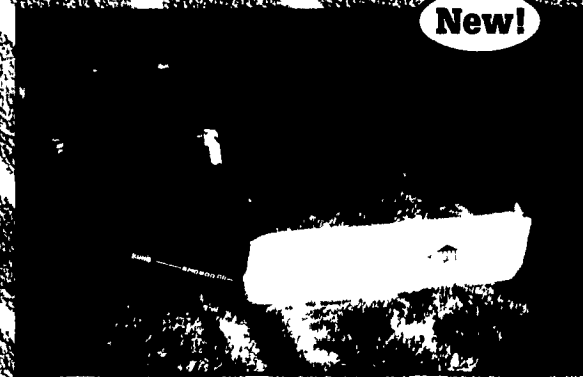

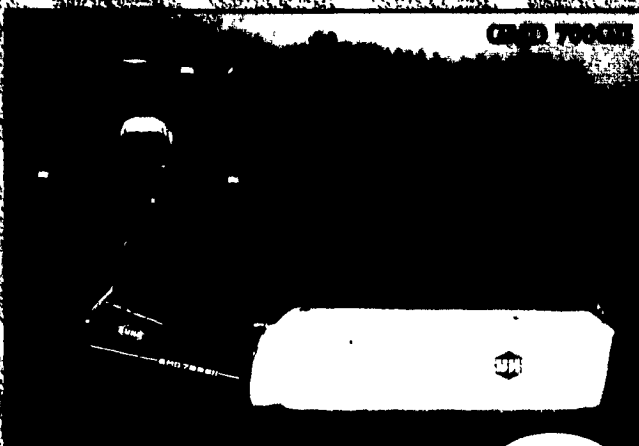

Introducing II Disc Mowers

The first disc mower introduced in 1968, Kuhn set the standard for mower technology.

For 1985, Kuhn was a new standard with the introduction of the GMD 500, 700, and 800 Generation II Disc Mowers. These new mowers feature exciting improvements that Kuhn pioneered in the industry: production Kuhn mower technology introduced a new level of disc mowers in North America and the World.
