HI-MOISTURE SHELLED CORN SILO WITH HOPPER FLOOR

"Hi-Moisture Shelled Corn"
You know the advantages of hi-moisture shelled corn versus dry corn for animal feeding. So now consider the many advantages of **POURED CONCRETE** to store and protect your valuable grain. "Our 6" thick concrete walls reflect 38% of light beams, resulting in 780 times more heat-resisting ability than steel, and 25 times more insulating power than steel."
"Our 6" thick walls have a very low leak potential compared to prefab silos of any kind, and a very low maintenance requirement."
"PROTECT YOUR CORN FROM THE HEAT"
