

Walnut Run Is Farming At Its Best

Hoss's 6th Annual Fore FFA Golf Tournament July 20

DENVER (Lancaster Co) — The 6th Annual Fore FFA Golf Tournament is scheduled Monday, July 20.

The Pennsylvania FFA Foundation hosts its annual fundraising event at the Foxchase Golf Course, near Denver, and the Hawk Valley Golf Club, near Bowmansville.

Because of the overwhelming participation, like last year, the shotgun-start tournament will be held at the two golf courses. Registration and lunch will be from 11 a.m.-12:45 p.m. at the Foxchase Golf Course. The shotgun scramble begins at 1 p.m.

Immediately following the tournament, hors d'oeuvres will be served at the Foxchase pavilion. A dinner and awards ceremony will follow. Included is the special auction to also raise money for the foundation.

Cost for participating golfer is \$85, which includes a contribution to the future of FFA, a complimentary mulligan, golfing, a bucket of driving range balls, lunch, the 1 p.m. shotgun scramble, refreshment carts on course, contests and prizes, a complimentary "Happy Hour," and the dinner and auction.

There are several sponsorship categories, including the grand champion, for \$2,000; the Hole-In-One Contest for \$1,500; the Driving Range Sponsor, at \$1,250; the Show Champion Sponsor, for \$1,000; the 19th Hole Sponsor, for \$750; the Refreshment Sponsor, for \$500; the Par Three Contest, for \$400; the Putting Contest or Longest Drive Contest for \$300; Hole Sponsors, for \$250; and Team Awards Sponsor for \$150.

More than 8,500 state FFA members benefit from participation in the tournament.

To sign up, contact the Pennsylvania FFA Foundation, P.O. Box 10493 Calder Square, State College, PA 16805. For information, contact Kerry Hoffman at (814) 353-9230.

While government controls cause needless frustrations, Myer remains optimistic.

"I try not to get hung up on negative things, but look at things from a positive light," Myer said.

The Myers have a 1756 deed with the King of England's stamp on it for the property. The brick farmhouse was built in 1861. The Myers said that they fix the farmhouse up a small bit at a time because they don't believe in going in debt to fix the house. The farm comes first.

Dot enjoys gardening, landscaping, and raising flowers. She said, "My family had flower beds maintained from three generations.

Whenever family members and friends came, we walked through the gardens and dug out perennials to exchange. We drank lemonade and played croquet and now we (society) is going back to that."

The Myer couple is active at the Lititz Grace Brethren Church and are Farm Bureau members.

"It isn't that we never take off, but farming requires a different way of life. Except on occasion we don't go away Saturday night like most people our age," Dot said.

"If I had someone more socially minded, it would be difficult to farm," Myer said, with a laugh.

Think Big.

If you've been looking for a combine that's big on features, your search is over. Because the new GLEANER® Silver Series rotary combines are designed to give you big advantages and more. Take our large cleaning shoe, for example. It's the longest in the industry. With an adjustable chaffer and sieve to ensure proper cleaning and even finer separation. And if you carry extra large headers, our redesigned final drives have the strength to bear the load, while the load-carrying axle gives you the added support needed for large bin capacities. The optional turret style unloading system, available on the R62 and R72, has an extra long reach auger, giving you additional clearance

height when unloading into large trucks and grain carts. It also makes it easier to unload on-the-go and while working on uneven terrain.

But our extra large features don't stop there. The GLEANER ComforTECH® Cab is roomier than any available, and has creature comforts like a luxury air-ride seat, a heating and air conditioning system and a CB radio hookup, just to name a few. Plus, with 62 square feet of solar glass, 13% more than any other combine, you'll get a clear, unobstructed view of your crops.

For an even bigger picture, stop by and see us today. And get a combine that's engineered to help you get bigger returns.
