DELIVERY

INTEREST WAIVER
TIL MAY '99

More and more farmers are making hay the big way. More farmers are buying square balers from Hooper, Inc. With three models to choose from, the reasons to buy a CASE IH big square baler are clear:

CASE IH big square bales are quick to handle, and that means you can be more productive. In fact, with a CASE IH big square baler you can bale up to 20 tons of hay per hour. And there's no stopping to tie and eject bales. That's 1 ton every 3 minutes.

CASE IH big square bales give you large transport payload. Since bales are stackable, you can fit more hay into a limited area. The bottom line is more bales of hay per truckload.

CASE IH 8575 & 8585 big square balers are built to handle high moisture hay and deliver consistent bale weight and density regardless of varying moisture conditions. CASE IH balers keep moisture in for better quality hay. Higher hay quality means more profits.

CASE IH big square balers are center-line balers and have an extra wide pick-up for increased capacity with less leaf loss. And a charge chamber preforms bale flakes for better leaf retention to ensure higher hay quality.

Hooper, Inc. has the experienced service mechanics who will keep your big square baler running strong. Hooper service people know balers and we know when your baler's down it's money out of your pocket. That's why Hooper, Inc. has the largest inventory of in-stock parts backed by the knowledgeable Hooper service team. And we'll come to you, delivering superior in-field service that will get you back to baling hay faster. Nobody knows big square balers like Hooper, Inc.
